Logan County Area Health Services Directory

This directory contains contact information for service providers supporting the local health care system. The directory includes telephone and Internet contact information for many health-related information centers in Kansas and throughout the U.S.

There are two purposes motivating the compilation of this information. The first is to ensure that local residents are aware of the scope of providers and services available in the local health care market. For most rural communities, capturing the greatest share of health care spending is an important source of community economic activity.

The second use of this information is for community health services needs assessment. The ability to review the full inventory of health-related services and providers can help to identify gaps that may exist in the local health care system. This could become the focus of future community efforts to fill the gaps in needed services.

This publication is formatted for printing as a 5.5" x 8.5" booklet. Set your printer to print 2 pages per sheet. In Acrobat, go to Print/Properties/Finishing and select 2 Pages per Sheet.

Funding for this work was provided by the Kansas Health Foundation Professor in Community Health Endowment administered by K-State Research and Extension at Kansas State University.

Kansas State University Agricultural Experiment Station and Cooperative Extension Service,
Manhattan, Kansas.

It is the policy of Kansas State University Agricultural Experiment Station and Cooperative Extension Service that all persons shall have equal opportunity and access to its educational programs, services, activities, and materials without regard to race, color, religion, national origin, sex, age or disability. Kansas State University is an equal opportunity organization.

Issued in furtherance of Cooperative Extension Work, Acts of May 8 and June 30, 1914, as amended. Kansas State University, County Extension Councils, Extension Districts, and United States Department of Agriculture Cooperating, John D. Floros, Dean, College of Agriculture.
